

We want to know

What could you do with 700 Square Feet?

Create an Art Installation?

Build an Exhibit?

Paint a painting?

Quilt a quilt

Lathe a bowl?

Throw a pot?

Compose an opera?

Make an animated film?

Practice a musical instrument?

Artist's Space!

This natural light area has been dedicated for the use of a visiting artist to 'Do Art In'. Watching an artist in action provides dynamic mentoring and inspirational opportunities for children. We are open to proposals of use from any Artistic or Fine Craft activity appropriate to viewing by children ages 4-13.

An honorarium will be offered commensurate with experience. The space is provided at no charge in exchange for the artist interacting daily with guests via conversation or a short program. Residencies are generally 3- 6 weeks.

Submission accepted all year round.

We invite interested persons or groups to email or phone and explain:

- * how you would use the space*
- * anticipated duration of your project or activity*
- * form of visitor interaction*
- * sample images of your art*

An information page is available on our web site with more details.

For submission please contact:
